

"We have found that by using a product with a higher pH like Oxygen Botanicals Hydrating Mask before extractions, and a product with a lower pH like Oxygen Botanicals MultiFruit Acid Refiner after extractions, it produces excellent results. We really love Oxygen Botanicals... beautiful products, beautiful results."

*Aesthetic Trainer, Bliss Spa, New York, USA*

"I am a firm believer in Oxygen Botanicals. I see results immediately. I would say that Oxygen Botanicals is the BEST product I have worked with...It's amazing!"

*Jerry, Spa Trainer, Elysium Spa, MN, USA*

"Oxygen Botanicals products are used by our team during facials, and once we found them, we've never looked back! Oxygen is disbursed upon movement, therefore increasing oxygen on and in the skin, leaving your skin with a healthy and youthful glow."

*A.Z., California, USA*

## Oxygen Infused Skincare

Up to half the oxygen content in our skin can be lost by the age of 25. As we age, our skin becomes less efficient at renewing itself, resulting in slower cellular metabolism, the reduction of collagen and elastin content and the appearance of fine lines and discolorations. The external effects of sun exposure, air pollution, diet and day-to-day stress can make skin look dull and dry. When skin is deprived of oxygen, it shows. Breathe new life into your skin with **Oxygen Botanicals**.

### What Makes Oxygen Botanicals Different?

**Oxygen Botanicals** is the first skincare line infused with pure oxygen that is not chemically derived. Most oxygen product lines utilize hydrogen peroxide, which can bleach skin and facial hair and be drying to the skin. **Oxygen Botanicals** has developed a unique and proprietary process to stabilize and encapsulate pure oxygen into catezome structures (advanced liposomes) that time release oxygen and other nutrients to the skin. Twelve different sizes of catezomes disperse into the skin approximately every 45 minutes. With twice daily applications, **Oxygen Botanicals'** formulations continually provide rejuvenating oxygen to your skin 24 hours a day, leaving it more supple and healthy-looking.

### Oxygen Botanicals has a Full Range of Products

#### Cleansers

A cleanser is used to remove make-up, dead skin cells, oil, dirt and other types of pollutants from the face. Various types of cleansers have been formulated for people with different skin types.

#### Toners

A toner is used after cleaning the skin to bring the skin's pH back to its natural state.

#### Exfoliants

An exfoliant helps remove dead skin cells on the skin's surface, thereby improving skin tone and texture. An exfoliant may be a physical scrub to remove the cells, or an agent that dissolves the protein within the dead cells, such as an enzyme or alpha hydroxy acid.

#### Moisturizers

A moisturizer is applied to make the external layers of the skin softer and more pliable, by increasing its hydration.

#### Sun Protection

A broad spectrum sunscreen offers protection against both UVA and UVB radiation.

#### Masks

A mask is used to provide extra cleansing, toning, firming or hydration to the skin.

#### Serums

A serum is a high concentrate of active (working) ingredients that is targeted to improve a specific skin concern.

### The Power of Science

- Pure, non-chemically derived oxygen
- Time-released catezomes
- Water based formulas
- Pure, natural botanicals
- No animal testing

### Oxygen Botanicals For All Skin Types

- Normal/Dry
- Photodamaged
- Combination/Oily
- Acne/Sensitive
- Hyperpigmentation
- Couperose
- Mature
- Men
